Each member of the committee and each every candidate for county officers, justices of the peace and constables are earnestly invited to be present.

#### A Call.

The members of the Democratic Committee of Garrard county, are requested to meet at Hon. R. H. Tomlinson's office, on Monday, January 22, at 10 o'clock, a. m., being county court day, for the purpose of making nominations for the county offices, and for the transaction of such business as may come before them. #### Faust Coming.

The next attraction booked at the local opera house is Porter J. White, in "Faust." Mr. White played here last winter and, notwithstanding the fact that the house was only half completed, gave an excellent production of the play. The company comes next month.

#### Be Prepared.

Smallpox is again raging over the state, many cases being reported in some towns. A stitch in time often saves making an entire garment, so the authorities might as well make all preparations, that a case could be promptly isolated if it turns up here. Everyone should be vaccinated. A case of smallpox in town would kill business as dead as a door nail. In time of peace, prepare for war.

#### Progressing Nicely.

The New Garrard Hotel is starting off under the most flattering prospects. Mr. Long and his estimable wife, have the house in splendid condition, and those who have stopped there are loud in their praises of the management.

#### Harding & Miller Music Co.

The strong combination of Harding & Miller and Harding & Riehm, the largest line of pianos and organs in central states, lowest prices, easiest terms and best instruments in the world. Business booming. If I am too busy to talk to you, leave your order with E. W. Harris, North West corner Public Square, where you will find samples of our goods for inspection. Geo. M. Overman, Salesman.

#### Thinks George Will Win.

Somerset Journal:—It is hardly probable that any earnest opposition could spring, or be worked up, in the district composed of Boyle, Lincoln, Garrard and Casey against Hon. Geo. T. Farris succeeding himself in the State Senate. In due course of succession it is Casey's time to name the candidate, and we have a straight tip that she proposes to waive the right in favor of rewarding Senator Farris for his faithful services by a renomination.

#### Harry Is Right.

Harry Giovanoli, local editor of the Danville Advocate, talks out in meelin' when he says: "If Danville gets the new railroad, it will become the metropolis of one of the richest sections of Kentucky." And so it will. With the already good start our sister city has, another road would mean the quick building of a city that would soon equal Lexington. The people over there realize this fact, and will move heaven and earth, so to speak, to get it. Will Garrard stand idly by and see Boyle get the plum? That remains to be seen.

#### Cheap Hash.

Some of the traveling troupes work merchants by agreeing to give them a "big ad" from the stage. The small sum of one dollar is collected, and the fakir calls the merchant's name from the stage. If these dollars were used in the right kind of ads, they would bring some results, but the merchants are casting their pearls before swine when they "bite" at these fake methods. The only profitable way of advertising is through the columns of a newspaper that goes to the fireside of your customers. A newspaper goes where you can't get "cheap hash" plans. Any successful business man will tell you this.

#### Some Improvements, Anyway.

The little handful of men who went to Richmond to ask for a new depot succeeded in getting a few improvements at the local station. Agent Patterson has received new lamps, a handsome cooler, benches for the waiting room and other articles that all well-regulated depots have for the convenience of the traveling public. Nothing further has been heard of the new depot, but it was learned in a round-about way that important improvements would be made on the present house. So the trip by the "committee" was not without fruit, after all.

#### 281 From 1 to 5.00.

That might be a riddle or an invitation to a church fair, but it isn't. It's a concise way of calling public attention to the fact that The Royal Tailors, of Chicago, have authorized us to reduce prices on 281 Fall and Winter Patterns all the way from \$1 to \$5 per suit—and we've done it! Our prices on this high grade tailoring were very low before, but now they afford absolutely the best investment a man ever made in the way of dress. Come and see these patterns; we have them all; costs you nothing to look at and but little to buy—and our guarantee is your safety-valve. [And here's a friendly tip: They won't last always.] J. C. Hemphill.

Don't fail to see our ladies shoes at 50, 75, \$1.00 and \$1.25. These prices are twenty five per cent. less than manufacturers cost. Logan & Robinson.

#### Coal and Feed.

Best coal always on hand, also a cheaper grade, for those who prefer quantity to quality, yet a good cheap coal. Ship stuff, shelled oats, Hay, etc., at Leavell's Mill.

Please remember the new grocery store near Marksbury's Hemp-house, where you can get big value for your money. Our goods are all new and fresh, and the very best quality. Robert Underwood.

#### Clearing the Decks.

It is our rule to clear our shelves of all goods at the end of each season. This we will do, regardless of cost. This season we are meeting with unusual success in moving out all our stock of goods. We positively will not carry over goods from season to season. We will make you some splendid bargains if you will call at our store now. Some elegant goods go at ridiculously low figures. Come see. J. Joseph.

#### PLEASE Remember This.

A nice bunch of personal items were mailed us from McCreary this week, but as no name was signed, of course we could not publish them. For the 'steenth time we wish to say that no newspaper will publish items or articles unless the publisher knows from whence they came. This is the universal rule with all reliable papers. The name is not wanted for publication, but merely to know the items are reliable. We are very thankful to those sending us items, and always publish all that come to the office from those we know to be responsible and reliable people.

#### They Are Hustling.

Our good neighbors in Lincoln county are on the hustle, and say they are going to get the railroad or burst a hame string. When such men as Judge Sauley, and other prominent citizens take hold of an enterprise, you can bet your bottom dollar they will bring forth fruit, if such a thing is possible. For the 'steenth time, The Record will say that if Garrard county wants the road, she must be up and doing. The time for action has arrived and our neighbors realize the fact we fear more fully than do the people of Garrard. What are you going to do about it?

#### A Fine Performance.

The entertainment given by Gus Sun and his big corps of minstrel artists in this city has been more highly complimented than has any troupe playing here in recent years. Its seldom that any show pleases everyone present, but in this case every man, woman and child there was delighted and left the building showering praises upon the big-hearted Gus Sun. The show is absolutely devoid of the time-worn turns and stale gags worked off by the average show people. Sun has a good show, and there's no discount on the statement. If he ever sees clear to come to Lancaster again standing room will sell at a premium.

#### Rail Road Meeting.

Pursuant to the call published last week, a number of Garrard county's citizens met in the court house Tuesday afternoon to discuss the railroad question. Mr. A. R. Denny was made chairman, and Louis Landram, secretary. After stating the object of the meeting, Mr. Denny called upon Ex-Gov. Bradley, who came forward and made an excellent talk in favor of the new road. He set forth the many advantages to be derived and made them so clear that even the weak-kneed element present were warmed up on the question. Capt. Herndon was then called for and made a most excellent talk. On motion, a committee of about twenty of our more public spirited citizens were appointed to solicit subscriptions and confer with land owners, regarding right of way. It was then decided to draw up a subscription different from the one previously used, and Ex-Gov. Bradley, Capt. Herndon and Mr. B. F. Hudson were appointed a committee to prepare it. We think the meeting will have the effect of creating new interest in the matter of securing the road.

#### New Time Card.

A new time card went into effect on Queen & Crescent Monday morning. There are no material changes in the local service, except that the fast northbound train No. 2 will stop at Danville hereafter whenever flagged. The Advocate says the through trains from Chicago to Florida pay no attention whatever to Danville, and hence there is no use of making the card confusing by placing them on it. The Correct card is as follows:

#### Change in Firm.

On March 1st, there will be a change in the firm of Logan & Robinson. Mr Robinson will retire, while the business will be continued at the same stand by Mr. Logan. This firm has been in business here for several years, and has enjoyed a splendid trade. It is the source of much joy to his many friends to know that Hugh Logan will continue in business in this city. No man has more friends or is more deservedly popular than he. Hugh has been selling goods in Lancaster since the memory of the oldest inhabitant runneth not to the contrary, (girls, this is only a joke, he's not a day over forty-eight) and all who have once had dealings with him remain his customers. Hugh Logan is one of the best

HUGH T. LOGAN.

business men we ever knew, and such citizens as he are of inestimable benefit to the town. No enterprise is suggested that he is not promptly in line pushing for its accomplishment. The Record does not hesitate to say that if all our citizens were as prompt and as willing to work for Lancaster's advancement as is Hugh Logan, we would not only get the Southern railroad, but many more improvements that can be had if they are gone after in earnest.
